

Stick together

Open my eyes, I'm not sleeping tonight,
I'm not feeling alright, I'm just freezing inside.
Feeling so lonely, we're falling so low,
we don't know where to go so we stay on our own.

It's time for you to go away,
there's nothing left for us to say,
the mess and chaos that you brought,
while all this time so hard we fought.

It's time for you to go away,
there's nothing left for us to say,
the mess and chaos that you brought,
while all this time so hard we fought.

Now that you've pointed out all of our flaws,
we could find out a way to improve all the laws.
We're in this together, we can make it better,
our efforts won't matter if we don't stick together.

It's time for you to go away,
there's nothing left for us to say,
the mess and chaos that you brought,
while all this time so hard we fought.

It's time for you to go away,
there's nothing left for us to say,
the mess and chaos that you brought,
while all this time so hard we fought.

It's solidarity we seek,
we have to care about the weak.
It's solidarity we seek,
we have to care about the weak.

It's time for you to go away
there's nothing left for us to say
the mess and chaos that you brought
while all this time so hard we fought.

It's time for you to go away
there's nothing left for us to say
the mess and chaos that you brought
while all this time so hard we fought.
